

FY27

Organized Retail Crime (ORC) Quarterly Outcomes Narrative

Organization Name:

Grant Number:

Reporting Quarter:

Individual Completing the Narrative:

~~~~~

### **Instructions**

Please provide a narrative describing outcomes **directly related to Organized Retail Crime (ORC) activities** during the reporting quarter. This information will be used to assess the impact and effectiveness of the grant and to identify statewide ORC trends.

### **Examples of Reportable Outcomes**

- Grant-funded equipment helped identify a suspect vehicle connected to 5 other retail theft incidents, resulting in identification and arrest of 3 suspects.
- Grant-funded Real-Time Crime Center (RTCC) resources supported coordination among 3 neighboring law enforcement agencies that identified connections between organized retail crime activity and a human trafficking network, resulting in 7 arrests, 5 felony charges and development of an ORC investigation.
- Targeted ORC patrol enforcement in a retail corridor resulted in a 20% reduction in reported retail theft incidents since this time last year.
- Digital forensic tools produced investigative leads that helped identify 4 suspects connected to resale/fencing activities. Officers recovered \$15,000 in stolen merchandise.

### **Examples of Non-Reportable Outcomes**

- Purchase updates
- Equipment installation progress
- Equipment functionality/activity counts
- Number of officer hours spent on patrol
- Thefts/warrants/arrests, etc. outside of organized retail crime activity

## **Quarterly Outcomes Narrative**
